OBJECTIVE

A highly motivated Computer Science student specializing in Cybersecurity. Demonstrates a strong passion for the field through earning certifications and competing in competitions. Possesses practical skills in system hardening, incident response, and scripting, proven in dynamic, competitive environments. My goal is to secure a summer 2026 internship to gain real-world experience in cybersecurity.

EDUCATION

Tennessee Technological University (Expected Graduation: May 2028)

Bachelor's of Computer Science

- **GPA: 3.91**

WORK EXPERIENCE

Brian Waggoner MD (February 2024 - Present)

Office Cleaner

- Consistently completed all cleaning duties to a high standard by adhering to a strict and efficient schedule.
- Collaborated with team members to efficiently divide tasks and ensure the complete and thorough sanitation of the facility.

CERTIFICATIONS

Red Team Operator (January 2026)

GIAC Foundational Cybersecurity Technologies (September 2023)

CompTIA ITF+ (May 2022)

COMPETITION EXPERIENCE

Collegiate Penetration Testing Competition - Alternate (October 2025 - January 2026)

- Performed active reconnaissance on Windows systems.
- Helped with team training by organizing meetings and setting up exercises.
- Constantly prepared to substitute in by actively completing Hack The Box challenges (system penetration testing challenges), updating my checklist, and working with competitors to stay engaged with what they work on and learn at practices.

Department of Energy CyberForce Competition - Competitor (November 2025)

- Placed **3rd nationally out of 96 teams** in an 8 hour Defensive and Capture the Flag Challenge.
- Worked within a team to defend a network of 6 Windows and Linux Virtual Machines simulating a oil rig, placing 1st in defense
- Solved Anomalies (CTF challenges) relating to malware analysis, forensics, energy, log analysis, cryptography, and stenography in a Department of Energy-sponsored competition.

eCitadel - Competitor (May 2025)

- Finished **9th** in a cyber defense exercise simulating a live commercial network environment.
- Defended critical services (AD, Database, and Web servers) against a live simulated Red Team, applying real-time hardening and patching to maintain operational availability and functionality.

CyberPatriot - Competitor (April 2024 - March 2025)

- Achieved **1st Place in Tennessee** by successfully defending multiple systems against known vulnerabilities.
- Hardened Windows 10/11 Pro and Windows Server 2019/2022 environments by configuring security policies, managing user permissions, and removing malware under time-sensitive conditions.
- Engineered a PowerShell script to automate the auditing of local and Active Directory user accounts, significantly reducing the time to identify and flag unauthorized credentials

ON CAMPUS INVOLVEMENT

CyberEagles Club - Club Mentor (September 2025 - Current)

- Participated in making weekly meetings to educate students on both Blue and Red team topics, as well as capture the flag.
- Co-developed labs giving students an interactive, asynchronous, and synchronous experience to reinforce what was learned from the presentation.

SKILLS

- Soft Skills: Problem Solving, Time Management, Teamwork, Critical Thinking.
- Offensive Cyber Tools: Mythic C2, Cobalt Strike, Wireshark, Hashcat, Nmap.
- Defensive Cyber Tools: Wireshark, Autopsy, SysInternals Suite, Ghidra.
- Programming Languages: Python, PowerShell, HTML, CSS, JavaScript.
- Operating Systems: Windows (10, 11), Windows Server (2019, 2022), Linux (Kali, Ubuntu).
- Virtualization Software: VMware ESXI, Proxmox.
- Source Control: Git, GitHub.
